EEC

EASTERN ECONOMIC CORRIDOR (EEC): CATALYZING GROWTH AND INVESTMENT

Thailand's Eastern Economic Corridor (EEC) is a major initiative to transform the eastern provinces—Chonburi, Rayong, and Chachoengsao—into a leading economic hub in ASEAN. With an investment of around 1.5 trillion baht (US\$45 billion), the project aims to boost infrastructure, transportation, and industrial capabilities, making the region attractive to global investors.

Key Infrastructure Developments:

- High-Speed Rail: A 220 km railway connecting Don Mueang, Suvarnabhumi, and U-Tapao airports, worth 224 billion baht, is expected to serve up to 60 million passengers annually in 20 years.
- U-Tapao Airport Expansion: Set to complete by 2029, the airport will handle 60 million passengers per year and include cargo and aviation training facilities.
- Laem Chabang Port Phase 3: Targeting a capacity of 18 million TEUs per year by 2029, aiming to become one of the top 10 ports globally.

EMBASSY LIFE

A PROJECT INTRODUCTION

Embassy Life is more than a residence – it is a curated living experience shaped by purpose, aesthetics, and vision. Set just 500 meters from the shores of Jomtien Beach, this 25-story condominium represents a seamless blend of classic charm and contemporary comfort, inspired by the relaxed elegance of coastal living.

Every detail has been thoughtfully considered: from the architectural language that harmonizes with its surroundings, to facilities that elevate day-to-day life into something exceptional. Whether it's the 70-meter outdoor swimming pool with a champagne bar, the rooftop infinity garden, or the state-of-the-art wellness and leisure zones, Embassy Life is designed to serve not only today's lifestyle – but also the evolving aspirations of tomorrow's residents.

We envisioned Embassy Life as a sanctuary for families, professionals, investors, and global citizens alike – a place where everyone, regardless of age or interest, can find space, comfort, and community. The balance between privacy and social interaction, rest and recreation, is delicately maintained through intelligent design and abundant amenities.

In every square meter, Embassy Life expresses a commitment to enduring quality, aesthetic balance, and a belief in timeless value. This is not merely a building – it's a destination. A place to arrive. A place to return to. A place to call home.
